

IEEE Instrumentation and Measurement Society New Zealand Chapter

2 – 3 November 2023

Workshop on Sensing, Measurement and Instrumentation for Healthcare, Food, Agriculture, Environment and Security

CALL FOR ABSTRACTS

General Chairs

Akbar Ghobakhlou

*Auckland University of
Technology*

Andrew Taberner

University of Auckland

Steering Committee

Melanie Ooi

University of Waikato

Poul Nielsen

University of Auckland

Ramesh Rayudu

*Victoria University of
Wellington*

Ian Platt

Lincoln Agritech

Gourab Sen Gupta

Massey University

The purpose of this workshop is to provide New Zealand-based researchers, scientists, engineers and students a forum to present their latest research findings and participate in discussions on different applications of instrumentation and measurement. This forum provides an ideal opportunity for participants to receive and contribute up-to-date knowledge of technology, applications and solutions in the region. Industry representatives are welcome to participate as well as exhibit products.

The IEEE Instrumentation and Measurement Society New Zealand Chapter encourages presentations in areas of, but not limited to: sensors, instrumentation and measurement technologies, and their application to health, food, agriculture, environment and security.

Abstracts should be 250 words, and must include the title and the presenter's name and affiliation. Submission and registration details are provided on the workshop webpage. Registration/sponsorship includes workshop attendance, lunch, morning/afternoon teas and a workshop networking buffet.

Venue

Auckland University of Technology,
Auckland, City campus
